## Happenings in the State

### Looking For the Money

Considerable dissatisfaction has been caused among the colony of homeless San Francisco actors and actresses now located in Oakland over the fact that the relief funds supposed to have been sent from the East for the special benefit of the actor folk has not reached proper parties. Herschel Mayall, the well-known local actor, has suggested that a committee be appointed to confer with Mayor Schmitz and find out just what has become of these funds. It is quite aggravating for these distressed actors to read of the assistance that their brothers of the profession have sent, and yet be forced to take their places in the bread line. Some investigation of this situation will be made at once and in the meantime the actors are living the simple life in Oakland, without funds to get away.

### A Good Country

A gentleman who contemplates investing in Mexico writes to ask if he will be protected from bandits in case he decides to cast his lot here. Yes, friend, you will be protected from bandits. You will also be protected from foot-pads, slugging strikers, bank burglars, highwaymen and members of other classes of industry which flourish in the United States of America where you reside. There is more safety in a minute in Mexico City than there is in any great city of the United States. I have never heard of single instance of a woman being knocked down in the streets of this city.—Anglo American.

### Brains in the Business

The Continental Fire Insurance Company of New York have begun paying their San Francisco losses without evasion or delay. They have not crawled behind the earthquake clauses or sought delay because the policies of their patrons were burned. They simply said "Come to the Captains office and get your money."

This policy is in sharp contrast to the methods pursued by some companies whose representatives policy holders have hard work to find. The Continental people hunt the policy holders.

The result is that the Continental people will reap a harvest of business. Simply because there is brains in the management.

### Busy Times For Cupid

San Francisco can boast of a new record. It is a month since the calamity and the high-water-mark for the issuance of marriage license was reached. In the month exactly 418 couples appeared before "Cupid" Munson, and after depositing the necessary \$2 and taken oath to various statements, received the requisite paper. The total is eighteen more than have ever been issued in a calendar month in the history of the city. June, 1905, set the record up to date.—Sacramento Bee.

### Annual Dinner

The ladies of the Methodist church will give their annual dinner on Decoration Day in Odd Fellows' hall. The proceeds will be used to repair the church.

### Notice to Prospectors and Others

Under the state law of Nevada approved March 15, 1896, the University of Nevada is required to receive, examine, and report upon the mineral content and value of all ores sent by citizens of the state and taken from within the boundaries of the state. Provision has been made in the University budget for a small yearly sum of money to defray the expenses of carrying out this work. This sum is not sufficient to employ a man for this work during the summer recess of the University and consequently all specimens and samples received during these months are held over until the first week in September at which time the necessary work is done and the reports are rendered.

Notice is herewith given that all the samples received after May 29th will be held over until September 1st, at which time, reports will be sent out in the order in which the samples were received.

Mining Department, University of Nevada, Reno, Nevada May 16, 1906.

### Strike Reported at De Lamar

A De Lamar, Nevada, dispatch says that the strike made on the Gold Chain property east of De Lamar seems to be almost limitless in its proportions and in exciting much attention among mining men, as the ledge is in direct line with those yielded millions for the April Fool and the De Lamar companies. The ledge has been traced for over a mile in length and it is 200 feet wide. The ores are principally low grade, averaging from \$16 upwards.

### Selling Whisky to Indians

John Ferryman, a former resident of Pailsade who has been a county charge for several years, was arrested on Wednesday by Sheriff Sweeney for selling whisky to Indians. He has been suspected of carrying on this traffic for years at both Pailsade and Eureka. It is now alleged there is sufficient evidence to send him up for a term of imprisonment.

### Boiler Blows Up

The engine of the second section of the Southern Pacific train of Sunday morning exploded at Cedar, Wells. The boiler was blown from the tracks and much other damage was inflicted. The tracks and much other damage was inflicted.

The fireman and engineer were killed, while several of the passengers were badly shaken up by the concussion. So far as can be learned only two were killed by the explosion.

The cause of the wreck is unknown. The name of the engineer is L. F. Simmerman, while that of the fireman is M. S. Irwin. They both have homes in Ogden.

### Committed to Asylum

Tom Patterson, recently of Goldfield, has been committed to the insane asylum from Austin.

### Exonerated

Charles Stanton, who shot and killed Victor Ellis near Wadsworth, has been exonerated by the coroner's jury.

Notice of Application for Permission to Appropriation the Public Waters of the State of Nevada.

Notice is hereby given that on the 15th day of Sept., 1905, in accordance with Section 23, Chapter XLVI, of the Statutes of 1905, one Philip V. Mighels and Frank L. Wildes of Carson, County of Ormsby and State of Nevada, made application to the State Engineer of Nevada for permission to appropriate the public waters of the State of Nevada. Such application to be made from Ash Canyon creek at points in N E 1/4 of S W 1/4 of section 10 T 15 N R 19 E by means of a dam and headgate and five cubic feet per second is to be conveyed to points in N E 1/4 of S W 1/4 of section 11, T 15 N R 19 E, by means of a flume and pipe and there used to generate electrical power. The construction of said works shall begin before June 1, 1906, and shall be completed on or before June 1, 1907. The water shall be actually applied to a beneficial use on or before June 1, 1903.

Signed:

PHILIP V. MIGHELS,

State Engineer.
